SUPPLEMENTAL INCIDENT RECORD**

FORM 10-343A

Incident Number: LAME 11-2519**SUMMARY:**

On November 23, 2011 at approximately 1934 hours I responded to a report of a motor vehicle accident, on Northshore Rd at mile post 38, involving a single vehicle and a bovine. There was extensive damage to the front of the vehicle. No one was injured. The bovine was dispatched due to its injuries.

SCENE:

The accident occurred on Northshore Road at approximately mile post 41.8 in the North bound lane of travel. The roadway was unlit. The section of road is paved, straight, flat and level.

DAMAGE:

The vehicle (identified by NV License #1SL691) sustained cosmetic and functional damage to the front of the vehicle. The estimated cost to repair the damage is over \$500.00.

INJURIES:

There were no injuries.

EVIDENCE:

Witness statement.

Photo log.

NARRATIVE:

On November 23, 2011 at approximately 1934 hours I received a report of a motor vehicle accident, involving a single vehicle and a bovine that occurred on Northshore Road at approximately mile post 38. The reporting party had driven his damaged truck to the St. Thomas access road (approximately mile post 46) to get cell service to call for assistance. I responded with Ranger Austin.

ACTIONS TAKEN:

I arrived on scene at approximately 2026 hours at the junction of Northshore Road and the St. Thomas Access Road. I observed the family of the reporting party to be on scene with him at this time. The family was not involved in the accident. I confirmed that the driver of the vehicle, identified as Owen HENDERSON (identified by his NV DL #4300154324) was uninjured. I observed that the vehicle sustained cosmetic and functional damage to the front end. I photographed the damage to the vehicle while HENDERSON completed a written statement. HENDERSON agreed to show Ranger Austin and myself to where the accident occurred. Ranger Austin and I followed HENDERSON South bound on Northshore Road till we stopped at approximately mile post 41.8. I observed debris that was consistent with the damaged vehicle on the shoulder of the North bound lane. HENDERSON cleared the scene and removed his vehicle at that time. Shortly after finding the debris I located the bovine associated with the accident. I observed a large, black steer approximately 15-20 yards off the roadway on the North bound side of the roadway. The steer was mid slope on a hillside. I observed one of the front legs of the steer to be broken. The steer had

Incident Number: LAME 11-2519

pieces of automotive debris and glass protruding from its left side and appeared to have labored breathing. Due to obvious and significant injuries, the decision was made to dispatch the steer. The steer was dispatched at approximately 2141 hours by Ranger Austin. Photographs were taken of the accident scene, debris and the dispatched steer.

STATEMENTS:

On November 23, 2011 at approximately 2035 hours I received a written statement from Owen HENDERSON. The following is a summary of that statement. HENDERSON stated that:

- He was traveling North bound on Northshore Rd at 7:00pm on 11-23-11.
- He was traveling at approximately 50 MPH.
- He was at approximately mile marker 37.5 when he saw 3 cows crossing the road, walking away from the lake.
- One cow was in the South bound lane, one cow was in the North bound lane, and one on the shoulder of the roadway.
- The cows were dark colored.
- He hit the brakes as soon as he saw them.
- He hit the cow in the North bound lane.
- The cow hit the front passenger side headlight.
- He looked for the cow and couldn't find it.

INVESTIGATIVE CONCLUSION:

Based on the witness statement and my observations I concluded the following:

Vehicle 1 (V1) was traveling North bound on Northshore Road on the evening of 11/23/2011 at approximately 1934 hours. V1 was traveling at approximately 50 MPH. At approximately mile post 41.8, V1 encountered 3 cows that were crossing the roadway, traveling away from Lake Mead. The operator of V1 attempted to stop the vehicle upon seeing the cows, but was unable to avoid a collision. V1 struck a black steer that was in the North bound lane of travel. The front end of the vehicle sustained cosmetic and functional damage.

DISPOSITION:

V1 was removed from the scene by the owner/operator.

The steer was dispatched by Park Rangers due to obvious and significant injuries.

CHARGES PENDING:

None.

LAKE MEAD NATIONAL RECREATION AREA
SUPPLEMENTAL INCIDENT RECORD**

FORM 10-343A

Incident Number: 11-2519**INCIDENT TYPE: MVD/PDO****SUMMARY:**

On November 23, 2011, a black steer was dispatched, subsequent to a motor vehicle accident, on Northshore Road, MP 41.8.

ASSIGNMENT:

I responded to a report of a motor vehicle accident on Northshore Road, near Milepost 38.

ACTION TAKEN:

I arrived in the area of Milepost 38, on Northshore Road. I was unable to locate any signs of a motor vehicle accident.

I continued to the St. Thomas Access Road and met Ranger SAUER. Ranger SAUER had completed a motor vehicle accident investigation at that location. I spoke with Owen HENDERSON, the reported operator of the vehicle that struck a cow. I requested that HENDERSON show us where he had struck the animal. He agreed.

Ranger SAUER and I followed HENDERSON. He stopped at approximately Milepost 41.8, on Northshore Road. I noted headlamp glass and other debris consistent with an accident lying on the roadway. I looked around the immediate area and located a black steer standing on a nearby hillside. HENDERSON identified the animal as the one he struck. HENDERSON subsequently left the area.

DISPATCH:

Ranger SAUER and I discussed how we would proceed with inspecting the animal for injury. We agreed to move to a higher position, above the animal and to the west. As we approached the animal, I noted that it turned to keep us in view. I saw that the animal's front right leg was badly injured. When the cow moved, I could see that the injured leg moved freely in all directions and appeared to be supported on by tissue.

As Ranger SAUER and I moved closer, the animal began to charge up hill directly towards our position. I fired my shotgun 3 times at the animal. The animal adjusted its course and ran by us. We followed the animal approximately 15 yards. I shot the animal again; striking it behind the front leg. The cow turned and moved down a ravine. I fired a final round striking the cow in the head, dropping it to the ground. We stood by the area and ensured that the cow was deceased.

We inspected the cow for brands or markings. We were unable to locate any.

PHOTOGRAPHS:

Reference Ranger SAUER case incident report.

ATTACHMENT D TO DECLARATION BY MARY HINSON

United States v. Bundy, No. 2:12-cv-804-LDG-GWF

**United States Department of the Interior
National Park Service
Investigative Services Branch**

Investigative Activity Report

Case Title: Livestock Use and Agriculture	ISB Case Number: ISB-PW-11-0350		
	Park Case Number: LAKE 11-2229		
Location: Overton Arm, Lake Mead National Recreation Area	Case Status: Open	Report Date: 09/21/2011	Report Number:
Report Subject: Livestock Observations			

SUMMARY: Since 1998 Cliven D. Bundy, dba V/O Construction and Ranches, has had cattle in trespass on public lands. Cliven D. Bundy had been permitted to graze his cattle on the Bunkerville Allotment, near Bunkerville, NV. The majority of the Bunkerville Allotment is on public land managed by the Bureau of Land Management (BLM). There is part of that allotment that is within the boundary of Lake Mead National Recreation Area (LMNRA). The BLM manages the entire allotment. That allotment has been closed to grazing, and an injunction has been filed against Cliven D. Bundy requiring him to remove the cattle. Cliven D. Bundy has never removed his cattle. Over the years cattle have migrated into other areas within LMNRA that are outside of the allotment. The BLM is engaged in counting and identifying ownership of cattle that are trespassing on public lands. The National Park Service is opening its own investigation of trespass cattle within the boundaries of LMNRA.

NARRATIVE: On 01/07/2012 at approximately 0850hrs I observed livestock, cattle, at Northshore MP 42 N36' 23.857 W 114' 25.421. The location where the livestock were observed is within the boundaries of Lake Mead National Recreation Area, a unit of the National Park Service located within the State and District of Nevada. I observed 3 cattle at this location. The 3 cattle did not have any tags or brands indicted the owner of the livestock was V/O Construction and Ranches.

Location: Overton Arm, Lake Mead National Recreation Area	Case Status: Open	Report Date: 09/21/2011	Report Number:
Report Subject: Livestock Observations			

SUMMARY: Since 1998 Cliven D. Bundy, dba V/O Construction and Ranches has had cattle in trespass on public lands. Cliven D. Bundy had been permitted to graze his cattle on the Bunkerville Allotment, near Bunkerville, NV. The majority of the Bunkerville Allotment is on public land managed by the Bureau of Land Management (BLM). There is part of that allotment that is within the boundary of Lake Mead National Recreation Area (LMNRA). The BLM manages the entire allotment. That allotment has been closed to grazing, and an injunction has been filed against Cliven D. Bundy requiring him to remove the cattle. Cliven D. Bundy has never removed his cattle. Over the years cattle have migrated into other areas within LMNRA that are outside of the allotment. The BLM is engaged in counting and identifying ownership of cattle that are trespassing on public lands. The National Park Service is opening its own investigation of trespass cattle within the boundaries of LMNRA.

NARRATIVE: On 02/18/2012 I observed livestock, cattle, at Northshore MM 45 ½ GPS 36° 28.38, 114° 25.10. The location where the livestock were observed is within the boundaries of Lake Mead National Recreation Area, a unit of the National Park Service located within the State and District of Nevada. I observed 3 cattle at this location. 0 of the cattle had an ear tag or brand that indicted the owner of the livestock was V/O Construction and Ranches. 3 of the cattle had no tags or brand.

Report Subject: Overton Arm Trespass Cattle Survey and Damage Assessment			

SUMMARY: Since 1998 Cliven D. Bundy, dba V/O Construction and Ranches, has had cattle in trespass on public lands. Cliven D. Bundy had been permitted to graze his cattle on the Bunkerville Allotment, near Bunkerville, NV. The majority of the Bunkerville Allotment is on public land managed by the Bureau of Land Management (BLM). There is part of that allotment that is within the boundary of Lake Mead National Recreation Area (LMNRA). The BLM manages the entire allotment. That allotment has been closed to grazing, and an injunction has been filed against Cliven D. Bundy requiring him to remove the cattle. Cliven D. Bundy has never removed his cattle. Over the years cattle have migrated into other areas within LMNRA that are outside of the allotment. The BLM is engaged in counting and identifying ownership of cattle that are trespassing on public lands. The National Park Service is opening its own investigation of trespass cattle within the boundaries of LMNRA.

NARRATIVE: On 07/30/2012 within the jurisdiction of Lake Mead NRA, Lake Mead NRA Resource Management and Rangers conducted a Cattle Survey and Damage Assessment near the Overton Arm. At approximately 0848hrs NPS Resource Management (RM) employees Newton, Culler, and Scherpenisse observed livestock, cattle, at Glory Hole near N36 21'38.8" W114 21'38.5" (photo 1). RM employees observed 6 cattle at this location. None of the cattle had an ear tag or brand that indicted the owner of the livestock was V/O Construction and Ranches. Do to the weeds the RM was not able to identify if the cattle had any tags or brands.

At approximately 0826hrs NPS Resource Management (RM) employees Weckesser and Pipkin observed livestock, cattle, at Overton Beach near N36 21' 38.8" W114 21'38.5" (photo 2). RM employees observed 1 cattle at this location. The cattle did not have an ear tag or brand that indicted the owner of the livestock was V/O Construction and Ranches.

On 07/30/2012 Law Enforcement Ranger Lenon observed the following cattle from NPS fixed wing aircraft:

- 1 Cattle N36 26'79" W114 21'17"
- 5 Cattle N36 27'12" W114 20'82"
- 4 Cattle N36 27'15" W114 20'07"
- 14 Cattle N36 23'70" W114 20'01"
- 1 Cattle N36 22'26" W114 20'86"
